About This Game

PLANDZZ²

Plandzz 2 is a continuation of part one. You need to solve both simple and challenging puzzles. Gather all the parts to make a whole block.

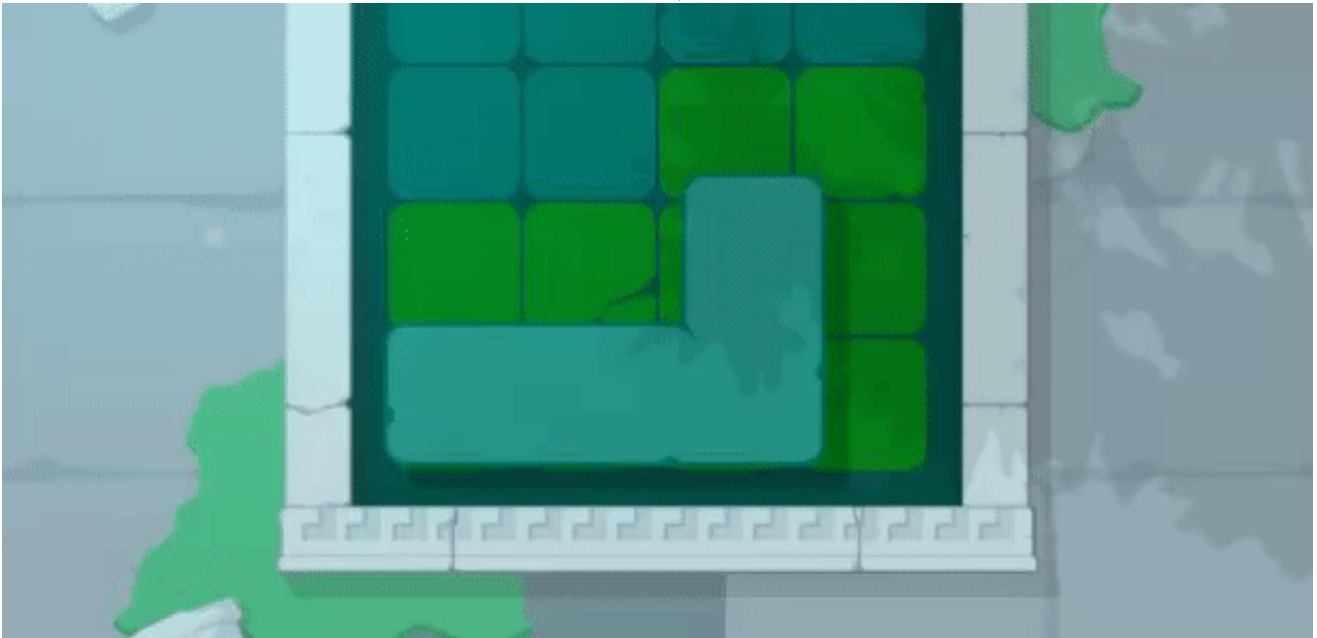

- 40 levels. Each level is divided into 1-3 sublevels.
 - 2 kinds of puzzles
 - Steam achievements
 - Pleasant music

About mechanics:

It's the same as in the first part - turn, take and put a figure into the place needed.

L,T,Z-shaped figures have got transparent areas therefore a 360 degree turn gets impossible when you take them (a figure falls down).

When a player moves(not rotate) a figure outside the playing area no movement points are lost.

Completed 10/1/2018.. Plandzz 2 is a simple fun puzzle game. It's quite short, I finished it in less than an hour. Get it on sale or in a bundle.. Very straight forward game, just rotate the pieces and place them in the right order to make a whole block.

Some of them could be quite challenging but since you have no time limit for solving a level a very easy game.

Playing 1-2h 40 levels will gain you 120 achievements.. This is a wonderful block arrangement game where you have to figure out how to fit the blocks into the correct shapes in the fewest moves. Time is factored into your score, but there is no time limit and score is really meaningless (unless you're looking for bragging rights), so there is no need to feel rushed (not that any of the levels take a significant amount of time).

The changes in difficulty since the first game (separating blocks into two groups in the first set of puzzles and having to form a pattern with the dots on the blocks in the second set of puzzles) and the change to allow you to move pieces outside of the playing area without it counting as a turn are very welcome improvements over the first game.

The only potential con I can see is that the puzzles are a lot smaller in this game compared to the first game. Having said that, I think the increased difficulty makes up for the decreased playing area.

I would definitely recommend this to anyone who likes block/tile-based puzzles.. Much improved since the first game.

Right amount of puzzle pieces and level size.

Introduced new mechanics.

This time I like it!

8/10

Enjoyed this more than the first one. Try it if you like puzzle games.. I liked Plandzz 2 more than the first game since it's not as ridiculously difficult on the upper levels. No frustration, more fun.
